## **DESIGN:**

The precise design produced at steel are most suitable for the client specifications. Our experienced designers deliver optimized solutions taking into account all local regulation and project specification. we provide design required for the steel structures mezzanine floor, roofing staircase and all other general steel works both in mild and stainless steel.

## **STRUCTURAL FABRICATION & ERECTION:**

We manufacture and install steel structures of any size and magnitude as per the client's requirements. We deliver structural need of high rise building, industrial building warehouse buildings, residential buildings temporary structure etc. with the bolted steel construction of structures we provide you with fast and economical solutions.

## **ROOFING & CLADDINGS:**

We provide complete solutions for the building envelope. Facade Claddings and roofing requirements of any size or type are provided by us and we execute the projects based on the programme in full co-ordination with other services.

## **MEZZANINE FLOOR:**

Mezzanine floor s are a very quick and cost effective way to create new space without the expense and inconvenience of relocation. We have design fabricated many mezzanine floors all over the country successfully. We construct mezzanine floors in any volume and at any load bearing capacities. We built mezzanine floors in office, ware houses & residence etc.

## **STAIRCASE & HANDRAILS:**

We manufacture and install stair case of different designs according to the customer specification. We can fabricate any kind of staircase such as spiral staircase, curved staircase etc. in both mild steel & stainless steel. The balustrades of any design are also fabricated and installed by us.

## **WALKWAYS & PLATFORMS:**

We Fabricate and install walkways according to your specification and requirements. Platforms are also made in any dimensions as required and installed by us. We fabricate and install walkways and platform for utility such as maintenance, residential, industrial & etc.
